

# MultiCage

BY MIMSAFE

## Total freedom

MultiCage is the wise solution for those who live an active life. When the trip to nature should work as smoothly as a transport inside town. There is plenty of room for one or more four-legged friends.

# Load up and relax

The best way to take advantage of the day is to get away. And everything goes so much easier when the right equipment is in place. MultiCage has been adapted to be as flexible as possible, with solutions that work both in your everyday life and in your spare time. Smart features, solid spaces and high security - making every trip worth looking forward to.

## Maximum safety 360°

A valuable cargo should be surrounded by safe materials. Like all our transport cages, MultiCage has therefore undergone rigorous crash tests at RISE Research Institutes of Sweden. The tests for MultiCage have been adapted to the cage size and load without sacrificing its energy-absorbing characteristics if the accident were to occur. Thanks to its robust construction, it can withstand massive impact from all directions - 360°.

**The smart features make MultiCage an obvious choice. Thanks to the stackable design, it is possible to connect several cages at both height and width. In this way, the cargo space can be used to the maximum.**

The built-in carrying handles are out of the way in retracted position but simply fold out when you need to lift. Quick fastening for ratchet straps facilitates a safe installation. It is also possible to connect MultiCages together.

MultiCage single comes with one door and one fixed back cover. If you want to be able to reach your four-legged friend from both sides, the double cage is the right choice, where you also have the opportunity to divide the space into two with a removable partition wall. It can't be more flexible!

## **Design shaped by knowledge**

MultiCage is created with care. With over 30 years of experience, we know what it takes. The focus is always on the user and therefore every detail is well thought out. Basically, everything is only about function and safety. And of course, offering a safe and comfortable place for anyone who is close to you.

**Adjustable divider**  
Can be placed in three different positions or as a fixed back cover

**Retractable handles**  
The carrying handles are out of the way in retracted position

**Ratchet straps**  
Classic 25mm ratchet straps for secure clamping

**Lock ready**  
MultiCage is prepared for additional locks

**Built in lock system**  
Key lock included

**Door equipped with gas spring**  
Assists in keeping the door open when needed

**One-hand quick release**  
Opens with ease thanks to the one-hand quick release

MultiCage is stackable using its anchoring tools
